### **DETAILED ACTION**

The final action dated 7/03/02 is hereby withdrawn and prosecution is reopened.

An election between inventions is required as set forth below.

#### ***Election/Restrictions***

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1-32, 34-38, and 62-80, drawn to a confection cup assembly, classified in class 220, subclass 4.03.
- II. Claims 52, 42, 43, 45, 46, and 81, drawn to sleeve for a confection cup, classified in class 220, subclass 676.

The inventions are distinct, each from the other because of the following reasons:

Inventions I and II are related as combination and subcombination. Inventions in this relationship are distinct if it can be shown that (1) the combination as claimed does not require the particulars of the subcombination as claimed for patentability, and (2) that the subcombination has utility by itself or in other combinations (MPEP § 806.05(c)). In the instant case, the combination as claimed does not require the particulars of the subcombination as claimed because the independent combination claims do not require the friction enhancer on the sleeve as set forth in claim 52. Additionally, the independent combination claims do not have the hole in the bottom of the sleeve as set forth in claim 81. The subcombination has separate utility such as can be a container by itself such as pencil holder or a flowerpot.

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction

for examination purposes as indicated is proper. Upon election of group I above, further election is required as set forth below.

This application contains claims directed to the following patentably distinct species of the claimed invention: Group I, friction enhancer is rubber;

Group II, friction enhancer is an annular rib;

Group III, friction enhancer is a longitudinal rib.

Applicant is required under 35 U.S.C. 121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable. Currently, no claim is generic. All the combination claims require a collar that is not part of the subcombination.

Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include all the limitations of an allowed generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record

showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Joseph C. Merek whose telephone number is (703) 305-0644. The examiner can normally be reached on Monday-Friday.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Lee Young can be reached on (703) 308-2572. The fax phone numbers for the organization where this application or proceeding is assigned are (703) 305-3579 for regular communications and (703) 308-3579 for After Final communications.

Any inquiry of a general nature or relating to the status of this application or proceeding should be directed to the receptionist whose telephone number is (703) 308-1148.
